SYED MUHAMMAD IMRAN

FULL STACK DEVELOPER (MERN | NEXT JS)

imranrizvi648@gmail.com | +92 3322381826 | linkedin.com/in/syed-muhammad-imran-rizvi

PROFESSIONAL SUMMARY

Full Stack Developer experienced in designing and maintaining enterprise web applications, building secure REST APIs, and integrating frontend interfaces with backend services. Skilled in React.js, Next.js, Node.js, Express.js, FastAPI, and SQL/NoSQL databases. Experienced with multi-tenant platforms, workflow automation, operational dashboards, and AI-assisted application features, with an emphasis on clean architecture, maintainability, and reliable data flows.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, Tailwind CSS, React.js, Next.js

Backend: Node.js, Express.js, FastAPI, REST APIs, Python

Databases & ORM: PostgreSQL, MongoDB, MySQL, Prisma

Tools & Infrastructure: Git, GitHub, Postman, Docker, Redis, BullMQ

Security & Integration: JWT, Role-Based Access Control (RBAC), API Integration

PROFESSIONAL EXPERIENCE

Full Stack Developer | AgenticSense Nov 2025 - Present

- Develop and maintain full-stack applications, delivering responsive interfaces and backend features for enterprise workflows.
- Build and integrate secure RESTful APIs that connect frontend modules with application services and databases.
- Manage application data flow, database operations, and business logic to support consistent, reliable functionality.
- Collaborate on performance improvements, maintainable architecture, and troubleshooting across the application lifecycle.

Full Stack Developer | Coderatory Jun 2025 - Oct 2025

- Contributed to full-stack web applications from feature implementation through testing and issue resolution.
- Developed responsive, interactive user interfaces with attention to usability, layout consistency, and performance.
- Integrated frontend components with backend APIs and supported data-driven application functionality.
- Worked with team members to resolve bugs, improve code quality, and deliver project milestones.

PROJECTS

LeadSense AI Email Agent

- Developed a multi-tenant sales email platform to organize leads, run outbound campaigns, and manage inbound conversations across teams.
- Integrated AI-generated personalized outreach and knowledge-base-grounded inbox reply drafts for human review, supported by background processing for email and campaign workflows.

Technologies: Node.js, Express.js, Python, PostgreSQL, Redis, BullMQ

Mining Management Software

- Built mining operations software for tracking mine-site production, managing employees, and coordinating equipment, inventory, and finance.
- Implemented procurement approval workflows, fuel tracking, role-based access, and operational reporting with Excel and PDF exports.

Technologies: Node.js, Express.js, PostgreSQL, Prisma, JWT

AI-Powered Agentic OCR & Financial Document Processing Platform

- Developed an enterprise document-processing platform for a Saudi steel manufacturer, supporting PDF uploads, document management, and financial data extraction workflows.
- Built APIs and backend services for document validation, database operations, ERP integration, and automated financial workflows.

Technologies: Next.js, FastAPI, Python, PostgreSQL

EDUCATION

B.S. Computer Science - Hamdard University, Karachi Feb 2025

FSc Pre-Engineering - Punjab Group of Colleges, Lahore 2020
